GROUP NAME: Study Buddies

PROJECT NAME: 'CoronaHealthCare'

PREPARED BY:

Aftaha Ahmed	1825335
Nur Jahan Badhon	1822402
Raneem Ashoor	1738696
Jabbar Ahlam	1833220
Kaha Mohamud Mohamed Haid	1720416

DUE

09th August

'CoronaHealthCare' website is based on COVID-19 or coronavirus where the user can get all the information, news, updates in different countries as well as emergency service help.

1. Group Contributions

Each of the team members prepared 2 to 3 web pages for the progress presentation as shown in Table 1. In our webpage we built a platform to know details about coronavirus information. All of our group members tried to build an interactive and creative website. Moreover there is also a contact us page to remain connected with us.

Name	Contributions
Aftaha Ahmed	Pages: Home, Countries and Contact Us Web elements: Hyperlink, Slideshow(JavaScript),pictures, Video,Images-grid, embedded map and video,Logo,form-validation(JavaScript), Header and footer contents,alert-message(JavaScript).
Nur Jahan Badhon	Pages: News Room, Events and Speeches. Web elements: Hyperlinks, HTML Youtube, Images-grid, Mouseover-mouseout function(JavaScript), navigation,Slideshow(JavaScript),Header and footer contents,alert-message(JavaScript).
Raneem Ashoor	Pages: About Us, More Info. Web elements: Website design,animated icons for header and footer contents, Location map, Image gallery(JavaScript),

	Hyperlinks, Linking pages, Youtube video, our team section, form-validation(JavaScript), alert-message(JavaScript).
Jabbar Ahlam	<p>Pages: Symptoms, Tips</p> <p>Web Elements: Animated image on hover and slide rollover effect (CSS), Embedded YouTube videos ,Scrolling advice ticker using JavaScript, Interactive JavaScript matching card game for visitors, Embedded audio (MP3 format), Unified color scheme within my two pages (CSS)</p>
Kaha Haid	<p>Pages: History and Discovery.</p> <p>Web elements : Background with lower opacity that contains all body elements here. Images with mouseover hover to make the size bigger , Text animation using javascript, hyperlinks , linking pages , embedded video, video controls using DOM javascript.</p>

Table: 1

2. Use of third-party resources

Slideshow: Group member Aftaha and Nur Jahan made the slideshow taking help from the coding of w3schools.com. Moreover the contents and the idea was unique and self made. And the pictures were taken from google.

Original Corporate Website: Group member Aftaha used original websites like WHO.com, The Verge, Economic Times, The National in Home page. In countries page OECD.org page is connected to check further information about countries restrictions in movements. Group Member Nur Jahan also used WHO.com for

connecting and knowing further information. In Speeches Nur Jahan used pmo.gov.my and nymag.com. Team member Raneem has utilized Instagram, Facebook, Twitter, and Youtube from Free MalaysiaToday, kementerian kesihatan malaysia ,KKMPutrajaya ,KEMENTERIAN KESIHATAN MALAYSIA to link with the current website footer. However, no modification was made to these original sources.

Embedded YouTube: Team member Nur Jahan used Kanzlerin Merkel's speech fighting covid-19. In addition Mr. Bean's and International Nurse day video of Events page is added from youtube. Ahlam embedded suitable YouTube videos from the official KKM channel describing COVID transmission and another on advice in dealing with the new normal. Group member Raneem embedded a YouTube video related to our university on the More Info section. Group member Kaha has embedded video from a healthwise channel explaining how and when Covid-19 has started.

HTML5 Audio Elements: Team member Ahlam included a mp3 file using the HTML5 <audio> tag. It contains a PSA on Everyday Prevention Actions from the Center of Disease Control government website (USA).

JavaScript Elements: Group Member Ahlam included a scrolling ticker at the bottom of her pages with scrolling COVID related advice. Ahlam also included an interactive JavaScript memory game with a COVID related theme made from customized free graphics online. Group member Raneem used image-gallery where she displayed pictures with the help of javascript function to navigate between the images and a button to close it using jquery. Group member Kaha has used animation property for animating (Click me) text.

Graphics and Clipart: Group member Ahlam used free graphics from pngtree.com for the COVID symptoms and for the interactive JavaScript memory card game. Team member Raneem obtained images from pinterest.com, and google.com.

Font Awesome: Team member Raneem uses the icons from Font Awesome in the header and footer for every page.

Google Map: Team member Raneem embedded a map using Google Map to show locations of the international islamic university on a more info page.

Web elements	Team member	Modifications
Image Grid in Events page.	Nur Jahan	Size of the grid is modified to fit in the page using CSS.
Auto Slideshow in Events page	Nur Jahan	Slideshow is set by using javascript.
Slideshow in Home page	Aftaha Ahmed	Slideshow is set by using javascript.
Change information onclick in Countries page.	Aftaha Ahmed	Modified using javascript and css.
Speeches Page	Nur Jahan	Size and layout is modified to fit in the page using CSS.
Form Validation in Contact Us Page	Aftaha Ahmed	Validation to check if all elements are fulfilled is modified using javascript.
Image slide and shake effect in symptoms page	Jabbar ahlam	Animated image on hover and slide rollover effect (CSS)
Horizontal News Ticker in symptoms page	Jabbar ahlam	Scrolling advice ticker using (JavaScript)
Matching Game in tips page	Jabbar ahlam	Interactive (JavaScript) matching card game for visitors

Unified color scheme within tips and symptoms pages	Jabbar ahlam	Using (CSS)
Image hover.	Kaha Haid	Mouseover Image using hover (CSS) to change size
Background image	Raneem Ashoor	Background with adjustment to fit the website using CSS.
Website new design	Aftaha Ahmed	updated the design of the website (header, footer, side navigation) using CSS effects and icons(Font Awesome).
Images gallery in More info page	Raneem Ashoor	Image gallery set by JavaScript
Form-validation for Submit button for footer	Raneem Ashoor	Validation to check email using javascript.
Youtube Video on More info	Raneem Ashoor	Video has been added to the page.
Adding our-team section in About US page	Nur Jahan	Attractive design with hover and click effect using CSS.

NECESSARY STEPS

1. WASH YOUR HANDS!
2. SAFEGUARD LIVE EVENTS
3. UPDATE CONTINGENCY PLAN AND BCP
4. ENCOURAGE WORKPLACE DEPRESSING ACTIVITIES
5. KNOW YOUR RIGHTS!

To prevent from the corona Virus the said measures are the compulsory to follow.

MEETINGS FOR EVENTS

Meeting held in Malaysia with the PM

United Nations meeting in New York

ROLE OF NURSES FIGHTING COVID-19

International Nurse Day, 2020

Nurses play a vital role in providing health services. These are the people who devote their lives to caring for mothers and children; giving lifesaving immunizations and health advice; looking after older people and generally meeting everyday essential health needs. They are often the first and only point of care in their communities. The world needs 9 million more nurses and midwives if it is to achieve universal health coverage by 2030.

MOTIVATING EVERY AGE PEOPLE

Made by famous cartoon character to encourage people, 2020

The World Health Organization (WHO), Project Everyone and Tiger Aspect Productions have partnered to launch a Public Service Announcement (PSA) using global comedy cartoon star, Mr Bean.

If You Have Anxiety and Depression but Feel Better During Coronavirus, You're Not Alone

The coronavirus pandemic is a devastating mass trauma—but some people with anxiety and depression have seen their symptoms improve.

As COVID-19, the disease caused by the new coronavirus, has spread around the globe, many people have found themselves struggling to cope, regardless of their mental health histories. And to be clear, many if not most depression and anxiety patients have seen their symptoms worsen. But a fraction have, paradoxically, actually felt their symptoms alleviate.

“A lot of people are saying, ‘The terrible thing happened.’ So in a lot of ways you’re not in the anticipating state.”

— Elizabeth Winters, psychologist

Ironically enough, another factor that might be helping some people with depression and anxiety cope during this crisis is a habit that, in normal life, we try to avoid. Many people who experience depression and anxiety find themselves separating from their immediate situations, either intentionally or unintentionally—a mental process called dissociation. A person might, for instance, focus intensely at work before coming home to disappear into a TV show or endlessly scroll through Instagram. “That’s not great when we’re in our lives because that means you’re missing a lot of your life.”

Contact Us Page

- Contact us page provides the user with sharing their comments or feedback.
- While the user gives in the values asked in the form the page will show an alert box showing the query has been submitted after validating the inputs given.
- The webpage also checks the validation while submitting the email.

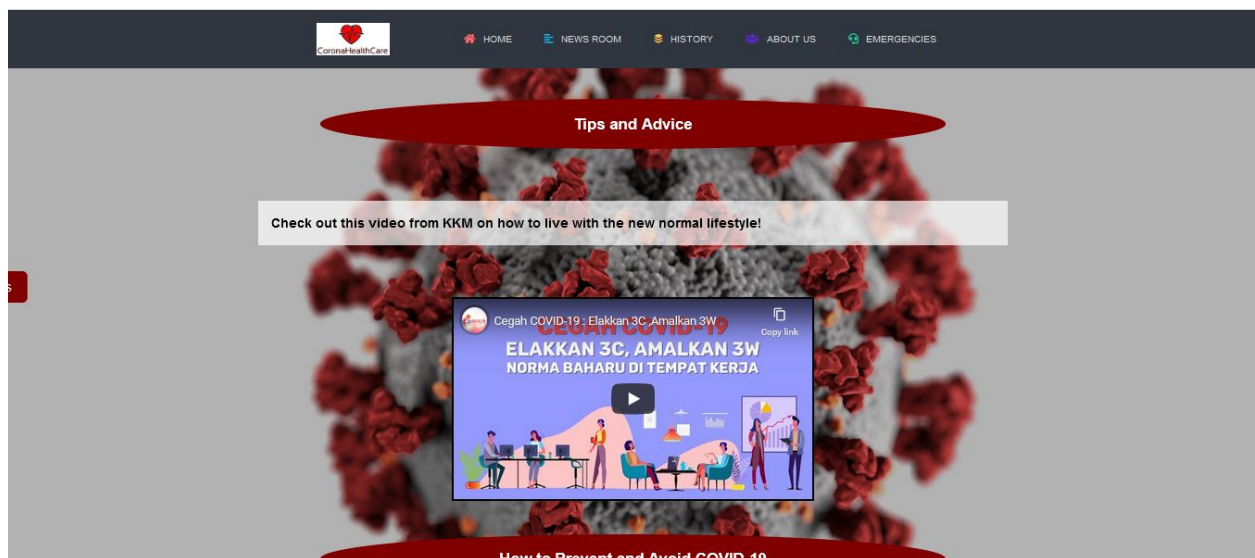

Symptoms page, first part.

Provide some symptoms of COVID-19 Using some animation (mouse over the picture will show the description of it.)

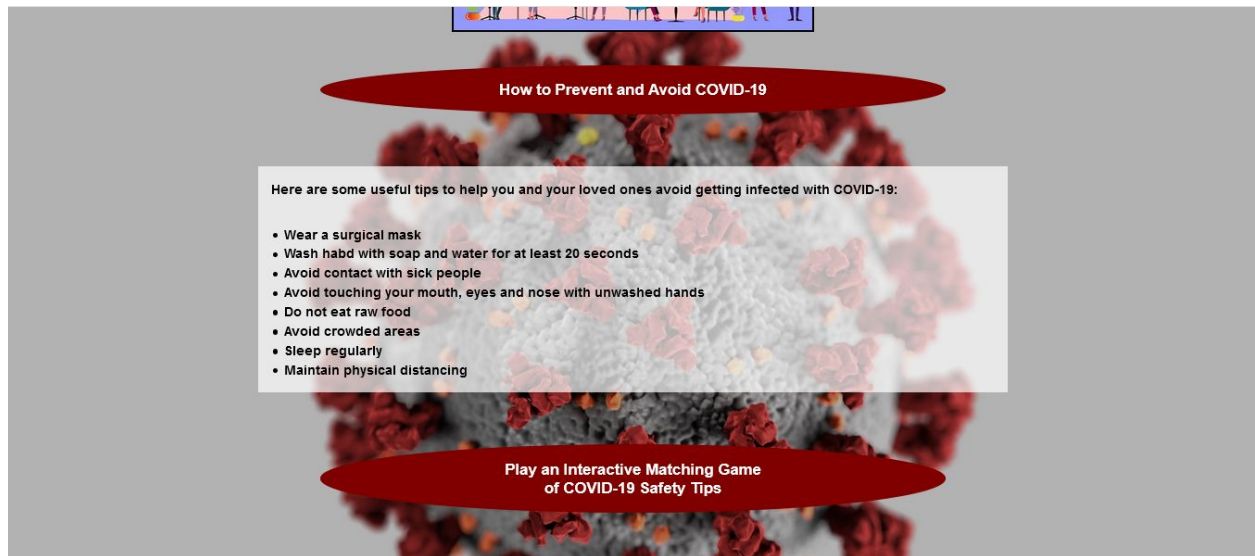

Symptoms page, second page.

Provide difference between Flu and COVID-19, and a video from the official Ministry of Health Malaysia YouTube channel for more information.

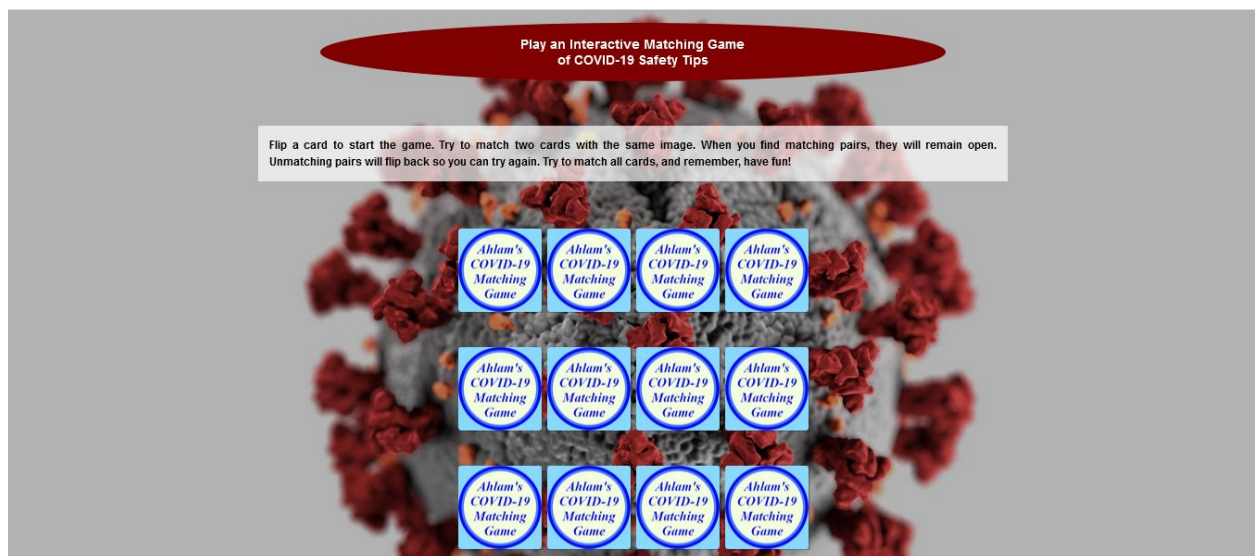

Tips page, first part.

Providing video from the official Ministry of Health Malaysia YouTube channel.

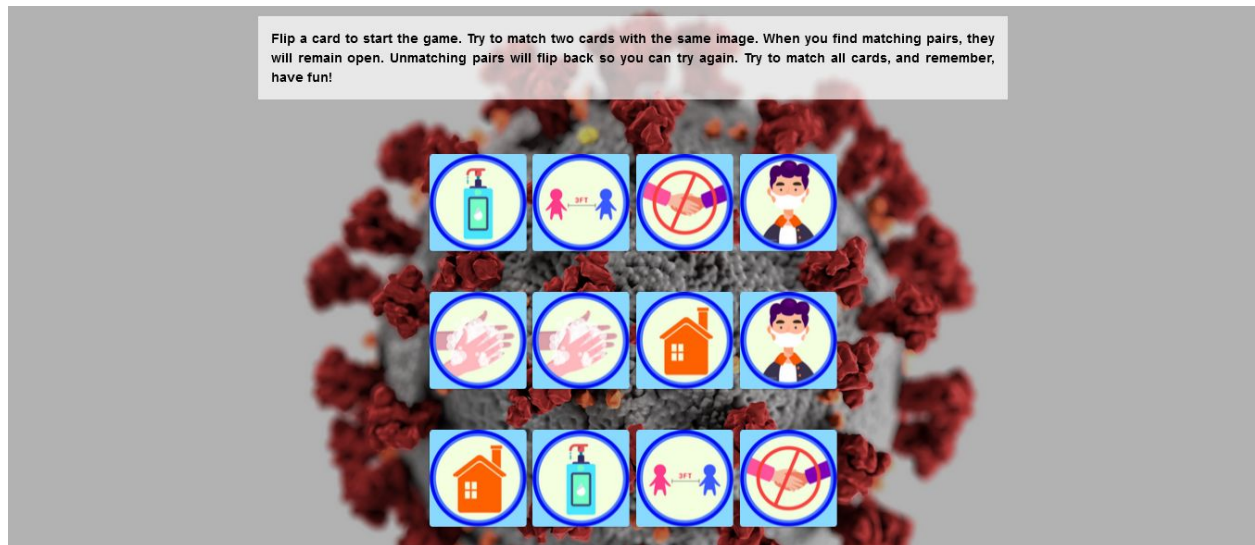

Tips page, second part.

Providing some useful tips to avoid getting infected with COVID-19

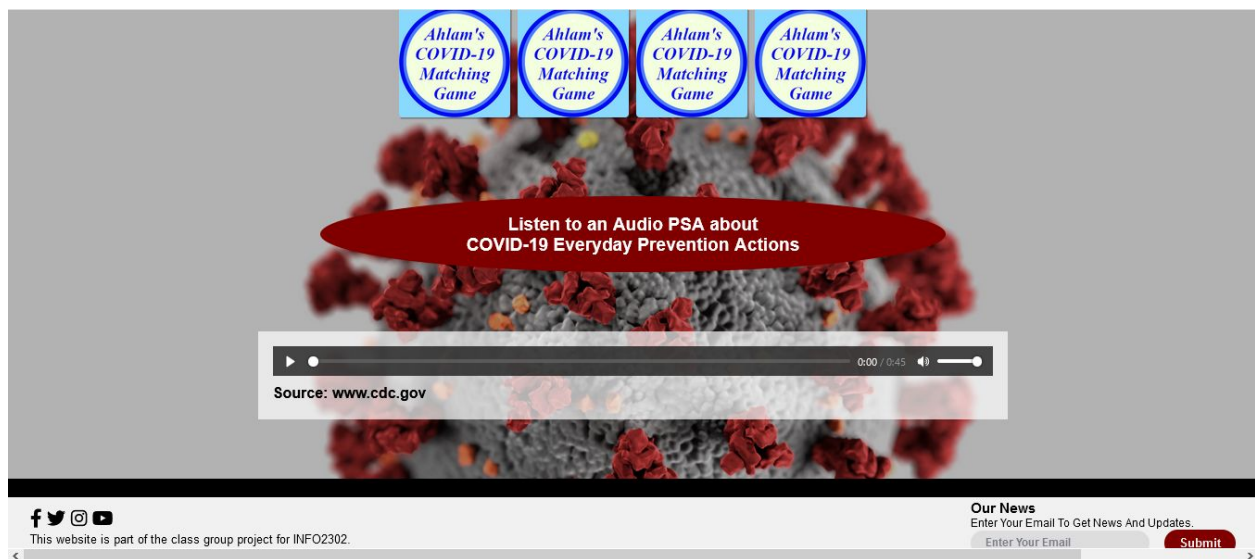

Tips page, third part.

Interactive matching card game for visitors with the instructions for the game.

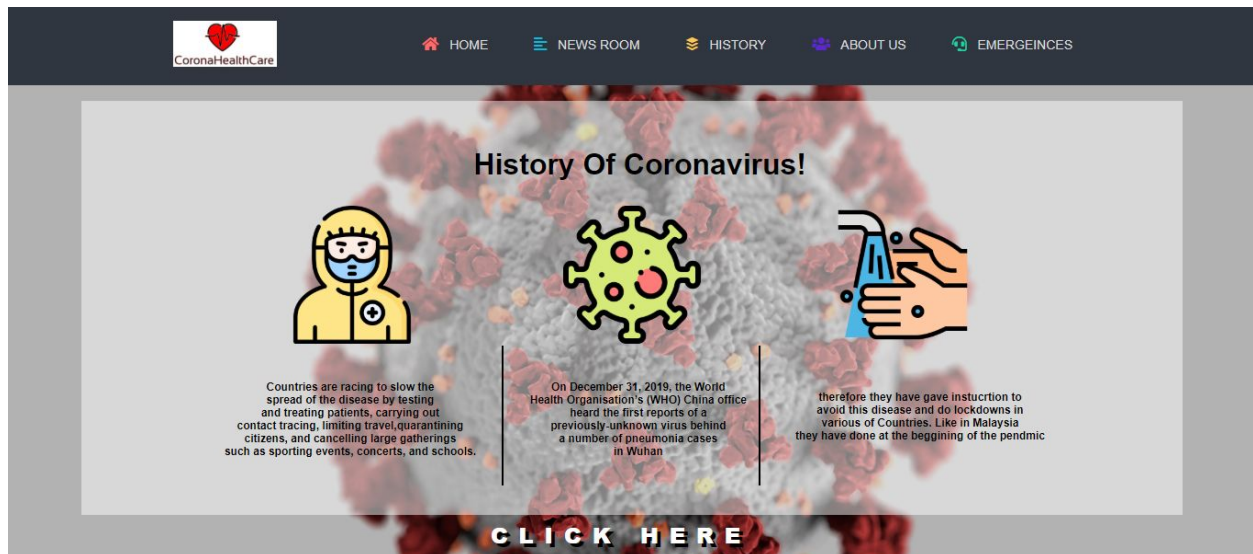

Tips page, third part.

Here it is the result for playing a matching card game. The users will learn some tips from the game.

Tips page, fourth part.

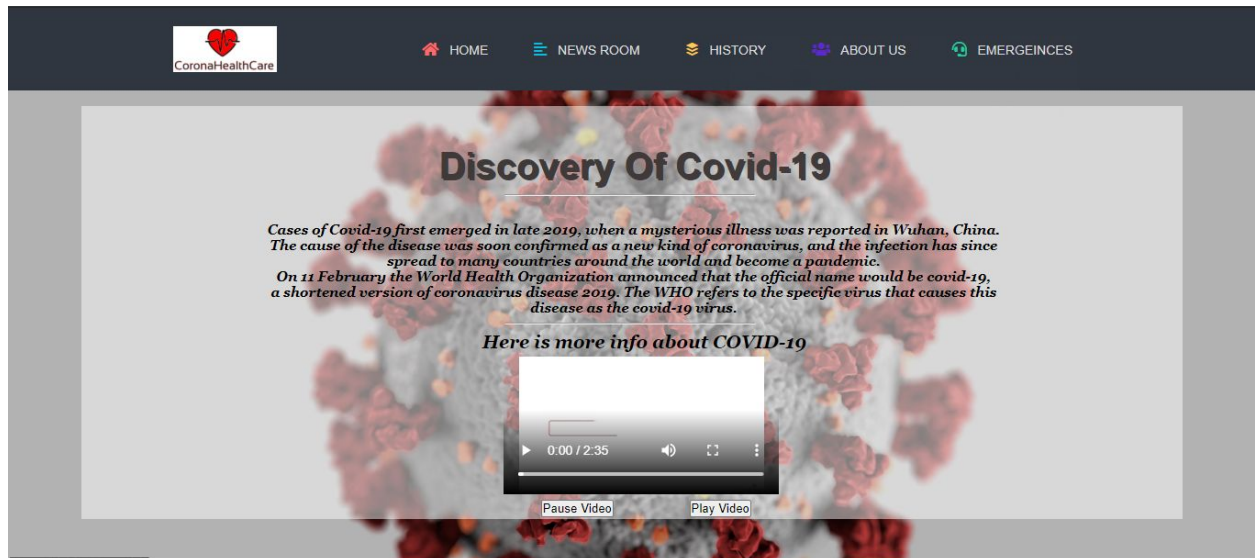

Providing an audio from a PSA on Everyday Prevention Actions from the Center of Disease Control government website.

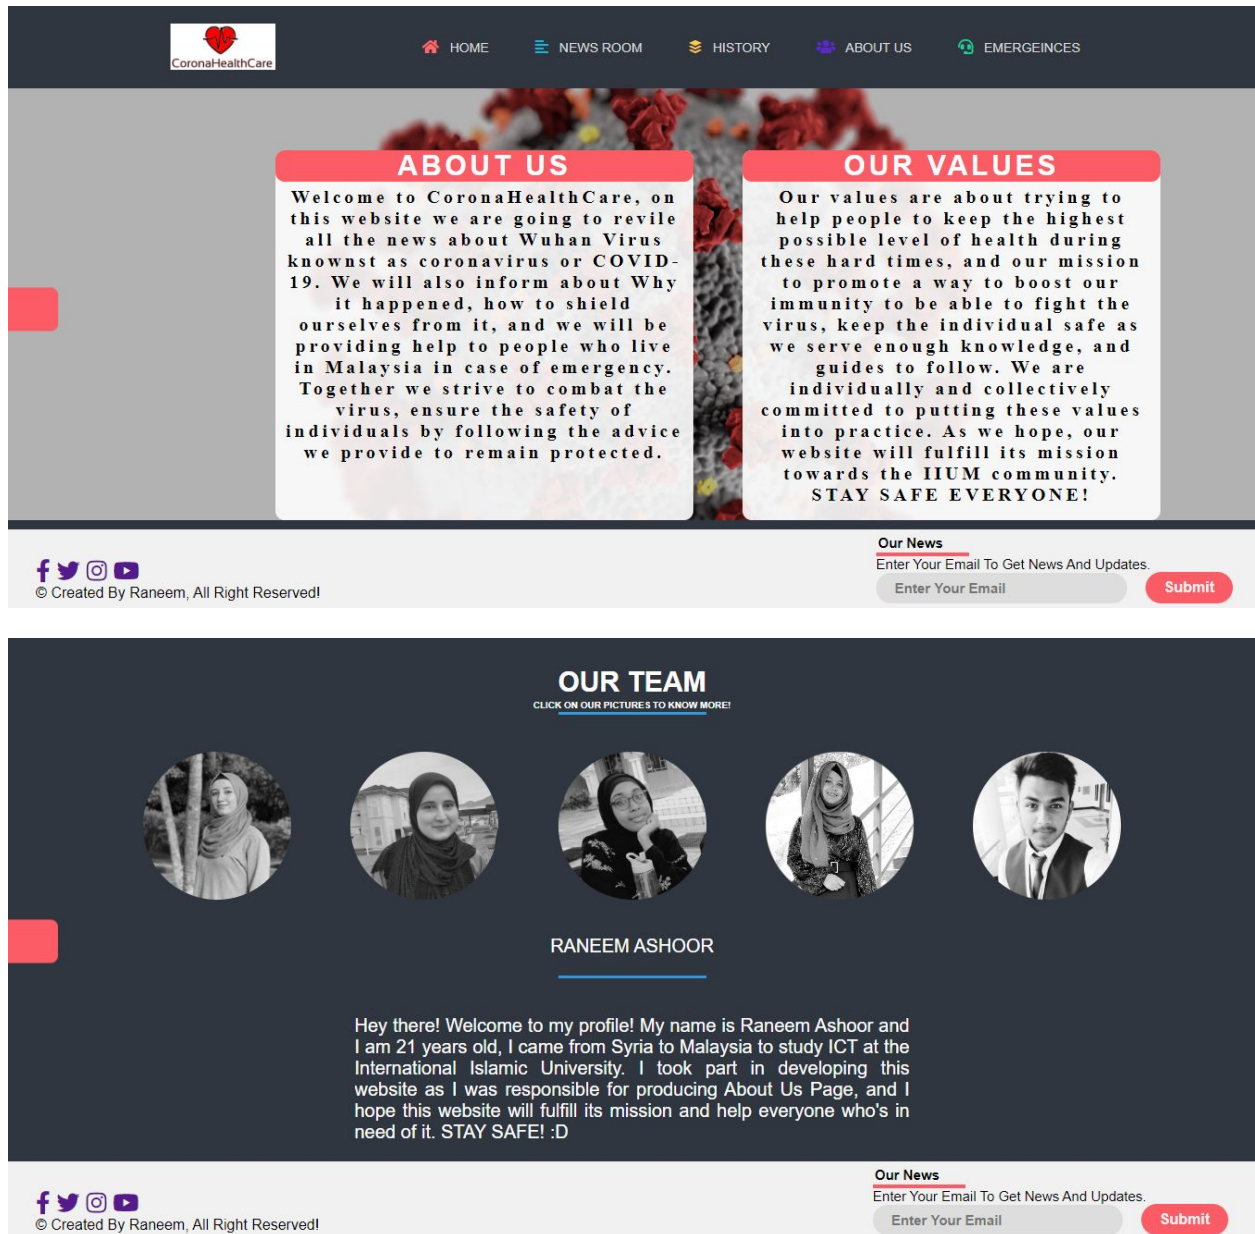

History Page : It contains How COVID-19 has started By using images to illustrate the story.

When you mouseover it the size changes!

Below you can see (CLICK ME) text with animation made with javascript (Wrap every letter in a span) with hyperlinks as well to lead us to the discovery page.

Discovery page contains how covid-19 was discovered first and there is a video from HEALTHWISE channel to explain more about its spread , below you can see controls of thevideo where you can (play , pause) video easily using javascript.

About Us page.

- The About Us page displays the information of the team members along with an introduction about the project and the value of it.
- When the user hovers over the team images or click on it, there will be some changes to the elements.
